- **Glocal's 20under20 – 2018 , The Medha Music Star 2074**

Date & Time: 2075-06-05 (September-21, 2018) Friday, 4:00 PM

Venue: Engineer Bhawan, Pulchowk, Lalitpur

My Journey Into Computer Programming

Talk by Kovid Raj Panthy

Basic Introduction

Who am I?

- I am a Programmer
- I am founder of Techsamaj
- I am programming teacher at Great Wit Educational Centre
- I am a Computer Technology Enthusiast
- I am Glocal's 20under20 – 2018
- I am an Algorithm-ist
- Owner of Coder Kovid YouTube Channel

What am I interested in?

- Programming
- Video Graphy
- Entrepreneurship
- Music
- Writing Algorithms
- Helping People Out

What am I working on?

- Artificial Intelligence
- Machine Learning
- Cognitive Computing
- Cloud Computing
- Algorithms
- Entrepreneurship

Family Background

Academic Qualification

Skills

- Algorithm Analysis
- Programming (Python, PHP, JavaScript, C, C++, etc)
- Tutoring
- Online Marketing
- Blogging
- Videography
- Full Stack Web Development
- Web Technologies like APIs
- Website Management
- Music
- Graphic Designing
- Cloud Software Analysis and Management
- Data Structures and Problem Solving
- Android App Development
- Computer Software Development

What Makes Me Motivated

- My Work
- Habit of Solving Real World Problems
- New Emerging Technology

Reason For My Dedication to My Works

- Stubborn Nature
- Curiosity
- Continuity
- Skills Developing Mindset

Journey From Beginning To Now.

My Works

- I am CEO / Founder at Techsamaj
- I have been providing programming knowledge on Coder Kovid YouTube Channel.
- I have been making different android application.
- I was chosen as Teens For Sustainable Development
- I am working on a Python Programming Book with the name of 'Python – A Programming Language of Tomorrow.'
- I develop different websites and web apps.

My Achievements

- I was awarded with the title of Glocal's 20under20 – 2018.
- I am also awarded as The Medha Music Star – 2074.
- I recently got interviewed at Makalu Television.

What made me attracted to programming?

- A new topic in our country.
- Global as well as local scope.
- Sharpened Mind.
- Can implement dream into reality.
- Good Compensation.

Future Journey

- Taking Nepal to next level of Technology.
- Sharing Positive Sides of Computer Technology to aware people about Technology.
- Helping people out with the use of computer technology.
- Development of Entrepreneurship in Nepal.
- Learning More and more.

My Message to All of the people

- Age is just a number, If you have potentiality in your work you will be obviously recognized.
- No matter what people say, you should continue your work.
- World never praises your talent until and unless the talent contributes something to the world.
- Figure out what you eagerly want to do in life and never give up on your dream even though the world does not believe in you. Certainly, you will make it big someday!

Coder Kovid: A Life Full of Passion for Technology and Coding

SPOTLIGHT OUR MISSION CONTACT US

CeetleHero Kovid Panthy

11th December 2017

I am thirteen years old and I love coding. I am also writing a book on coding which will be published soon.

Hello friends, I am Kovid Panthy, 13 years old kid from a small town of Bhaktapur district, Nepal. I run "Coder Kovid" YouTube channel. I want to share you my story about how I got started to code.

I asked permission to use my brother's computer till I was in Grade 5. Then my parents bought a computer for me. I was very happy. But the problem was, I didn't have internet. I felt that I could not do much without internet. After few months, my parents connected internet for me.
